Dear Colleagues,

**Turkish Society of Cardiology**, is planning to organize the 39<sup>th</sup> National Cardiology Congress with International Participation in November, befitting its 60<sup>th</sup> anniversary, in addition to organizing various training programs and activities throughout the year,

Our event, being one of the leading scientific congresses at both the national and international level with the number of participants and its high-quality scientific content, aims to present its extensive content in a wide range that will appeal to all our participants through a satisfying scientific program.

We will strive to prepare the best program for you at our congress, with our "Symposiums", "Pros/Cons Discussion" and "How to Do It" sessions. We will update and discuss our latest knowledge related to cardiovascular diseases. We will expand our "Cardiology in Daily Practice" sessions under the title of "Young Cardiologists Sessions" to cover all cardiology practice. Due to the intense interest in previous years, we have increased the number of our "Interactive Courses", which provide certification, to enhance our knowledge and skills.

Our sessions feature esteemed speakers and discussants from Turkey and around the world who are highly influential in their fields. We believe that our joint sessions with ESC, ACC, the Cardiology Association of the Turkish World, EACVI, EHRA, EAPCI, as well as ACVC and HFA, will be carefully followed.

The international dimension of our congress, which will again be accredited by TTB, is strengthening even more this year. We would be pleased to see you among us at our congress.

We look forward to meeting, sharing our knowledge and insights at our **39<sup>th</sup> National Cardiology Congress** on **8-12 November 2023**, with our best wishes and regards.

**Prof. Dr. Vedat Aytekin**  
President of Turkish Society of Cardiology

**Prof. Dr. Muzaffer Değertekin**  
President -Elect Turkish Society of Cardiology  
Chairman, Congress Scientific Committee

- ▶ S1 ORAL PRESENTATIONS
- ▶ S180 POSTER PRESENTATIONS
