INSTRUCTIONS FOR AUTHORS

The Anatolian Journal of Cardiology is published in accordance with the principles of independent, unbiased, and double-blinded peer review. It publishes original research related to clinical, experimental and basic sciences on cardiology, editorial comments, reviews covering current issues, educational articles, scientific letters, case reports, letters to the editor, original images, articles on history of medicine and publication ethics, diagnostic puzzles, and interviews deemed appropriate for the purposes and scope of the journal.

The journal evaluates only the manuscripts submitted through its online submission system on the web site http://www.anatoljcardiol.com. Manuscripts sent by other means will not be accepted.

The primary conditions for the acceptance of manuscripts for publication are originality, scientific value and citation potential.

STATEMENTS AND GUIDELINES

Statements

- All statements and opinions expressed in the manuscripts published in the Anatolian Journal of Cardiology reflect the views of the author(s). All liability for the advertisements rests with the appropriate organization(s). The Turkish Society of Cardiology, the Editor-in-Chief and KARE do not accept any responsibility for articles and advertisements.
- The manuscripts submitted to the journal, except abstracts, presentations, reviews and parts of theses, should not have been accepted and published previously elsewhere in electronic or printed format. Manuscripts evaluated and rejected by other journals must mention any previous submissions and supply reviewer’s reports. This will help to accelerate the evaluation process. If the submitted manuscript has been previously presented at a meeting, the name, date, city and country must be specified.
- The authors transfer all copyrights of the manuscript in the framework of national and international regulations to the Turkish Society of Cardiology as of evaluation process. A Copyright Transfer Form signed by corresponding author in order must be submitted to the journal with manuscript. After acceptance of manuscript, all of authors must fill and sign Copyright Transfer form. A separate form for each manuscript should be submitted. Manuscripts submitted without a Copyright Transfer Form will not be accepted. In the case of rejection, all copyrights transfer to the authors again. Authors must confirm that they will not submit the work to another journal, publish it in the original or another language and or allow a third party to use the manuscript without the written permission of the Turkish Society of Cardiology.
- All contents are the authors’ responsibility. All financial and legal responsibility associated with the copyright of submitted tables, figures and other visual materials protected by national and international laws rest with the authors. The authors take responsibility for any legal proceedings issued against the journal.
- Rejected manuscripts will not be returned except for artwork.
- To clarify scientific contributions and responsibilities and any conflict of interest issues relevant to the manuscript, all parts of the ‘Authors’ Contribution’ form must be completed by the corresponding author and the ‘ICMJE Uniform Disclosure Form for Potential Conflicts of Interest’ must be completed online by all authors. Both forms should be included in the manuscript at the time of original submission.

Guidelines

- The format of the manuscripts must be in accordance with the ICMJE Recommendations for the Conduct, Reporting, Editing and Publication of Scholarly Work in Medical Journals (updated in December 2014: http://www.icmje.org/icmje-recommendations.pdf).
- The presentation of the manuscripts must be in accordance with international guidelines. CONSORT should be used for randomized trials, STROBE for observational studies, STARD for diagnostic studies, PRISMA for systematic reviews and meta-analyses, ARRIVE for animal studies, and TREND for non-randomized behavior and public health studies.

Ethics

- All manuscripts will be vetted by the Editor-in-Chief’s Office for possible plagiarism and duplication. Sanctions will be imposed in accordance with the guidelines of the Committee on Publication Ethics (COPE) and with the principles of the HEART Group.

- All manuscripts must be written in English.

- An ethics committee report prepared in conformity with the WMA Declaration of Helsinki - Ethical Principles for Medical Research Involving Human Subjects and the Guide for the Care and Use of Laboratory Animals is required to be submitted with experimental and clinical studies, drug trial studies and some case reports. Authors may be asked by the Editor-in-Chief’s Office for an ethics committee report or similar in other circumstances also. Manuscripts reporting the results of experimental studies must explain in detail all animal procedures which the volunteers and patients have undergone and a statement indicating that consent for the study has been obtained from all subjects should be included in the text. Animal studies should clearly specify how pain or discomfort has been relieved.

PREPARATION AND SUBMISSION OF MANUSCRIPTS

Manuscript files should be prepared with Microsoft Office Word. The online submission system will direct authors during all stages of submission and provide necessary support for accelerating the submission process. A list of the files that should be supplied through the online submission system is provided below.

Statistical Analysis: Statistical analysis should be conducted in accordance with the guidelines on reporting statistical data in medical journals (Altman DG, Gore SM, Gardner MJ, Pocock SJ. Statistical guidelines for contributors to medical journals. Br Med J 1983: 7: 1489-93 and Lang T, Altman D. Basic statistical reporting for articles published in clinical medical journals: the SAMPL Guidelines. In: Smart P, Massonhove H, Polderman A editors; Science Editors’ Handbook, European Association of Science Editors, 2012.). The software used for statistical analysis must be described. Data must be expressed as mean ± standard deviation when parametric tests are used to compare continuous variables. For nonparametric tests, data must be expressed as median (minimum-maximum) or percentiles (25th and 75th percentiles). In advanced and complex statistical analyses, relative risk (RR), odds ratio (OR) and hazard ratio (HR) must be supported by confidence intervals and p values. The outcomes of statistical analyses and interpretation of the results must be in evidence-based scientific language (Editors of Heart Group journals. Statement on matching language to the type of evidence used in describing outcomes data. Anatolian Journal of Cardiology 2012;12:709).
• **Editorial Comment**
  Authors are selected and invited by the Editor-in-Chief. This type of manuscript aims at providing a brief commentary on an article published in the journal by a researcher who is an authority in the relevant field or by the reviewer of the article.
  - **Title**
  - **Main Text**: It should not include subheadings and should be limited to 500 words.
  - **References**: The reference list should follow the main text and the number of references should be limited by 15.
  - **Abstract, Keywords, Tables, Figures, Images and other visuals are not included**
  - **The title should also be provided in Turkish for works submitted by Turkish authors or from Turkey. The title of the manuscripts submitted by foreign authors outside Turkey will be translated into Turkish by the Editor-in-Chief’s Office.**

• **Review**
  Reviews prepared by authors with extensive knowledge on a particular field, which has been reflected in international literature by a high number of publications and citations, are evaluated. The authors may be invited by the Editor-in-Chief. A review should be prepared in the format describing, discussing and evaluating the current level of knowledge or topic that is to be used in the clinical practice and it should guide further studies.
  - **Title**
  - **Abstract**: It should not include subheadings and should be limited to 250 words.
  - **Keywords**: This section should contain a minimum of three and a maximum of six items in accordance with Medical Subject Headings (MeSH) terms prepared by the National Library of Medicine (NLM) and should be provided just below the abstract.
  - **Main Text**: It should include Introduction, other subheadings and Conclusion sections and should be limited to 5000 words excluding the references.
  - **References**: The reference list should be placed just below the main text and the number of references should not exceed 50.
  - **Tables, Figures and Images**: They should be provided after the reference list according to their order of appearance in the text.
  - For reviews submitted by Turkish authors or from Turkey, Title, Abstract, and Keywords should also be provided in Turkish. For reviews submitted by foreign authors outside Turkey, translations of these sections will be the responsibility of the publisher.

**NOTE 1:** The originality of the visuals included in the reviews should be assured by submission of an accompanying letter by the authors. Appropriate citation should be done for the visuals adapted from previously published sources, in accordance with the original versions of the printed or electronic copies. The written permission obtained from the copyright holder (publisher, journal or authors) should be sent to the Editor-in-Chief’s Office.

• **Education**
  Knowledge confirmed by the results of recent research studies, involved in education at academic level and used in clinical practices should be presented in detail in this type of manuscript.
  - **Title**
  - **Abstract**: It should not include subheadings and it should be limited to 250 words.
  - **Keywords**: This section should contain a minimum of three and a maximum of six items in accordance with Medical Subject Headings (MeSH) terms prepared by the National Library of Medicine (NLM) and should be provided just below the abstract.
  - **Main Text**: It should include Introduction, other subheadings and Conclusion sections and should not exceed 5000 words excluding the references.
  - **References**: The reference list should be provided just below the main text and the number of references should be limited to 50.
  - **Tables, Figures and Images**: They should be provided after the reference list according to their order of appearance in the main text.
  - For educational articles submitted by Turkish authors or from Turkey, Title, Abstract and Keywords should also be provided in Turkish. For articles submitted by foreign authors outside Turkey, the translation of these sections will be carried out by the Editor-in-Chief’s Office.

• **Scientific Letter**
  Manuscripts which announce a new scientific invention, are clinically significant, and are in the form of a preliminary report are accepted for publication as scientific letters.
  - **Title**
  - **Main Text**: It should include Introduction, other subheadings and Conclusion sections and should not exceed 900 words excluding the references.
  - **References**: The reference list should be provided just below the main text and the number of references should be limited to 10.
  - **Tables, Figures and Images**: They should be provided below the reference list according to their order of appearance in the text and should be limited to two.
  - **Abstract and Keywords should not be included**
  - For scientific letters submitted by Turkish authors or from Turkey, the Title should also be provided in Turkish. For letters submitted by foreign authors outside Turkey, the translation of these sections will be carried out by Editor-in-Chief’s Office.

• **Case Report**
  Since a limited number of case reports is published, only reports which are related to rare cases and conditions that constitute challenges in diagnosis and treatment, offer new methods or suggest knowledge not included in books, and are interesting and educational are accepted for publication.
  - **Title**
  - **Main Text**: It should include Introduction, Case Report, Discussion and Conclusion sections and should not exceed 700 words excluding the references.
  - **References**: The reference list should follow the main text and the number of references should be limited to 10.
  - **Tables, Figures and Images**: They should be provided after the reference list according to their order of appearance in the text and should be limited to two.
  - **Abstract and Keywords should not be included**

• **Original Image**
  Impressive and rare images that reflect significant findings based on clinical science, shed light on fundamental mechanisms of diseases, emphasize abnormalities or introduce new treatment methods are accepted for publication.
  - **Title**
  - **Main Text**: It should not include subheadings and it should be limited to 250 words.
  - **Tables, Figures and Images**: They should be provided after the main text according to their order of appearance in the text and should be limited to two.
  - **Abstract, Keywords and References are not included**
  - For original images submitted by Turkish authors or from Turkey, the Title should also be written in Turkish. For images submitted by foreign authors outside Turkey, the translation of this section into Turkish will be carried out by the publisher.

**NOTE 1:** Those manuscripts with video images have a better chance of publication.

**NOTE 2:** Manuscripts prepared in accordance with original image criteria are published only on an exceptional basis. Visit the journal’s website at https://www.anatolcardiol.com.

**NOTE 3:** For original image manuscripts to be taken under review, the first author must subscribe to the Anatolian Journal of Cardiology for one year. This requirement is only for the initiation of the preliminary assessment process. It does not guarantee acceptance for publication or evaluation. The manuscript of the subscriber will be evaluated strictly in accordance with the journal’s criteria. Being a subscriber does not guarantee priority in terms of evaluation or guarantee publication. The VAT-inclusive subscription fee is 240 TL and the Turkish Society of Cardiology must be contacted for subscription procedures.

• **Letter to the Editor**
  Letters to the Editor aim to discuss the importance of a manuscript previously published in the journal. This type of manuscripts should also include a comment on the published manuscript. Moreover, articles on topics of interest to readers within the scope of the journal, especially on educational issues, can be published in the format of a Letter to the Editor.
  - **Title**
  - **Main Text**: It should not include subheadings and it should be limited to 500 words.
  - **References**: The reference list should follow the main text and the number of references should be limited to five. The volume, year, issue, page numbers, authors’ names and title of the manuscript should be clearly stated, included in the list of references and cited within the text.
  - **Abstract, Keywords, Tables, Figures and Images, and other visuals are not included**
  - For manuscripts submitted by Turkish authors or from Turkey, the Title should also be written in Turkish. For manuscripts submitted by foreign authors outside Turkey, the translation of this section into Turkish will be carried out by the publisher.

• **Publication Ethics**
  These articles include current information on research and publication ethics and also cases of ethical violation.
  - **Title**
  - **Main Text**: It should not exceed 900 words.
  - **References**: The reference list should follow the main text and the number of references should be limited to 10.
  - **Tables, Figures and Images**: They should be placed after the reference list according to their order of appearance in the text and limited to two.
  - **Abstract and Keywords are not included**
  - For articles submitted by Turkish authors or from Turkey, the Title should also be written in Turkish. For articles submitted by foreign authors outside Turkey, the translation of this section into Turkish will be carried out by the publisher.

• **Scientific Puzzle**
  Images obtained directly or on operation, visuals revealed through EKG and/or imaging methods, and microscopic-microscopic anatomical, pathological findings of attention-grabbing and rare cases can be published. Unlike original images, the diagnosis and outcome of the case and image are hidden at the beginning in diagnostic puzzles. Four multiple-choice questions are prepared. In the following pages of the journal, the correct answer in terms of precise diagnosis and outcome is given with an explanation and didactic images and then discussed. The Editor-in-Chief will convert suitable images into the format of a diagnostic puzzle with the authors’ permission.
  - **Title**
  - **Main Text**: It should not exceed 500 words.
  - **References**: The reference list should follow the main text and be limited to a maximum of three.
  - **Tables, Figures and Images**: They should be placed after the reference list according to their order of appearance in the text and should be limited to five.
  - **Abstract and Keywords should not be included**
• For diagnostic puzzles submitted by Turkish authors or from Turkey, the Title should also be provided in Turkish. For diagnostic puzzles submitted by foreign authors outside Turkey, the translation of this section into Turkish will be carried out by the publisher.

• Miscellaneous
This type of manuscript covers important events and obituaries.
• Title
• Main Text: It should not exceed 1000 words.
• References: The reference list should follow the main text and the number of references should be limited to 10.
• Tables, Figures and Images: They should be placed after the reference list according to their order of appearance in the text and should be limited to five. Abstract and Keywords should not be included.
• For manuscripts submitted by Turkish authors or from Turkey, the Title should also be provided in Turkish. For manuscripts submitted by foreign authors outside Turkey, the translation of this section into Turkish will be carried out by the publisher.

B. References
• References should be numbered in the order in which they are cited within the main text.
• Only manuscripts published or accepted for publication should be cited.
• Recent publications related to the topic of the manuscript should be reviewed.

• Manuscripts accepted for publication may be published with an assigned DOI on the journal website http://www.anatoljcardiol.com.

C. Special Terms and Conditions
• For double-blinded peer-review process, the names of the corresponding author and other authors, their affiliations and any information on the study centres should not be included in any part of the submitted manuscripts and images, except the Title Page. This information should be added to the relevant section of the online submission system and included in the Title Page.
• Pharmaceutical products should be written with their generic names and brand and company names, city and country should be specified for medical equipment and devices.

3. Tables, Graphs and Figures
• Tables, Graphs, Figures and other visuals should be numbered in the order of their citation within the text and names of patients, doctors and institutions should not be disclosed.
• Tables should be prepared in a Microsoft Office Word document using the command Insert Table and inserted at the end of the references in the main text.
• Tables should not be submitted in JPEG, TIFF or other visual formats. For microscopic images, the magnification ratio and staining technique used should be specified in addition to figure legends.
• All visuals should have a high resolution (minimum 300 dpi).
• The thickness of the lines in graphs should be sufficient to minimize loss of quality if size reduction is needed during the printing process. The width of the graphs should be 9 cm or 18 cm. Drawings should be performed by professionals. No grey colours should be used.
• Abbreviations should be explained in alphabetical order at the bottom of the tables, graphs and figures.
• Roman numbers should be avoided in tables and figures within the text and their titles.
• Decimal numbers used in text, tables and figures should be separated by commas in English sections.
• Tables should be easily understandable and should not repeat the data in the main text.

NOTE: All visuals in the manuscripts are printed in black and white without charge. However, 300 TL per article must be paid if colour is required. The Editor-in-Chief’s Office of the Anatolian Journal of Cardiology should be contacted for payment.

EVALUATION AND PUBLICATION
• Manuscripts accepted for publication are prepared as ‘Epub ahead of print’ articles’ and published with an assigned DOI on the journal website http://www.anatoljcardiol.com.

All contributing authors of a manuscript accepted for publication are deemed to have accepted the right of editors to make corrections provided that no fundamental change is made to the basic meaning of the original text. Manuscripts not accorded priority for publication by the Editor-in-Chief, Editor, Associate Editors and Referees are rejected.
• The retraction requests of the manuscripts close to the final decision in evaluation process, without any reasonable explanation (not contrary to the Publication Ethics) is considered in the scope of rejection decision. Manuscripts that are not revised and resubmitted within the specified time and fail to notify the journal accordingly will be rejected.
• Manuscripts accepted for publication, addition to the author list, removal from the author list and order change cannot be effected.
• Manuscripts accepted for publication are prepared as ‘Epub ahead of print articles’ and published with an assigned DOI on the journal website http://www.anatoljcardiol.com.
• Manuscripts submitted for evaluation and other information about the journal are available on the website http://www.anatoljcardiol.com. Contact details for the Editor-in-Chief’s Office and the publisher are given below.
