The Anatolian Journal of Cardiology is published in accordance with the principles of independent, unbiased, and double-blinded peer review. It publishes original research related to clinical, experimental and basic sciences on cardiology, editorial comments, reviews covering current issues, educational articles, scientific letters, case reports, letters to the editor, original images, articles on history of medicine and publication ethics, diagnostic puzzles, and interviews deemed appropriate for the purposes and scope of the journal.

The journal evaluates only the manuscripts submitted through its online submission system on the web site http://www.anatoljcardiol.com. Manuscripts sent by other means will not be accepted.

The primary conditions for the acceptance of manuscripts for publication are originality, scientific value and citation potential.

STATEMENTS AND GUIDELINES

Statements

1. All statements and opinions expressed in the manuscripts published in the Anatolian Journal of Cardiology reflect the views of the author(s). All liability for the advertisements rests with the appropriate organization(s). The Turkish Society of Cardiology, the Editor-in-Chief and AVEs do not accept any responsibility for articles and advertisements.

2. The manuscripts submitted to the journal, except abstracts, presentations, reviews and parts of theses, should not have been accepted and published previously elsewhere in electronic or printed format. Manuscripts evaluated and rejected by other journals must mention any previous submissions and supply reviewer’s reports. This will help to accelerate the evaluation process. If the submitted manuscript has been previously presented at a meeting, the name, date, city and country must be specified.

3. The authors transfer all copyrights of the manuscript in the framework of national and international regulations to the Turkish Society of Cardiology as of evaluation process. A Copyright Transfer Form signed by corresponding author in order must be submitted to the journal with manuscript. After acceptance of manuscript, all of authors must fill and sign Copyright Transfer form. A separate form for each manuscript should be submitted. Manuscripts submitted without a Copyright Transfer Form will not be accepted. In the case of rejection, all copyrights transfer to the authors again.

4. The manuscripts sent by other means will not be accepted. During preliminary evaluation, the editors assess whether a manuscript’s format and sub-headings are prepared in accordance with the journal’s guidelines. Therefore, it is important that authors check the accuracy of the main text in terms of the following.

A. Manuscript types
   - Original investigation
   - Editorial comment
   - Review
   - Education
   - Scientific letter
   - Case report
   - Original image
   - Letter to the editor
   - Publication ethics
   - Scientific puzzle
   - Miscellaneous articles

B. References
C. Special Terms and Conditions

Guidelines

The format of the manuscripts must be in accordance with the ICMJE Recommendations for the Conduct, Reporting, Editing and Publication of Scholarly Work in Medical Journals (updated in December 2014: http://www.icmje.org/icmje-recommendations.pdf).

Arrival of manuscripts must be in accordance with international guidelines. CONSORT should be used for randomized trials, STROBE for observational studies, STARD for diagnostic studies, PRISMA for systematic reviews and meta-analyses, ARRIVE for animal studies, and TREND for non-randomized behavior and public health studies.

Ethics

1. All manuscripts will be vetted by the Editor-in-Chief’s Office for possible plagiarism and duplication. Sanctions will be imposed in accordance with the guidelines of the Committee on Publication Ethics (COPE) and with the principles of the HEART Group when non-ethical issues arise. The authors must obtain the permission of the copyright holder for non-original tables, figures, graphs, images and other visuals.

2. The authors should acknowledge and provide detailed information on any contributions in kind and financial support given by any foundations, institutions and firms.

An ethics committee report prepared in conformity with the ICMJE Declaration of Helsinki - Ethical Principles for Medical Research Involving Human Subjects and the Guide for the Care and Use of Laboratory Animals is required to be submitted with experimental and clinical studies, drug trial studies and some case reports. Authors may be asked by the Editor-in-Chief’s Office for an ethics committee report or similar in other circumstances also. Manuscripts reporting the results of experimental studies must explain in detail all procedures which volunteer subjects and patients have undergone and a statement indicating that consent for the study has been obtained from all subjects should be included in the text. Animal studies should clearly specify how pain or discomfort has been relieved.

PREPARATION AND SUBMISSION OF MANUSCRIPTS

Manuscript files should be prepared with Microsoft Office Word. The online submission system will direct authors during all stages of submission and provide necessary support for accelerating the submission process. A list of the files that should be uploaded through the online submission system is provided below.

A-III
• **Editorial Comment**
  Authors are selected and invited by the Editor-in-Chief. This type of manuscript aims at providing a brief commentary on an article published in the journal by a researcher who is an authority in the relevant field or by the reviewer of the article.
  • **Title**
  • **Main Text:** It should not include subheadings and should be limited to 500 words.
  • **References:** The reference list should follow the main text and the number of references should be limited by 15.
  • **Abstract,** Keywords, Tables, Figures, Images and other visuals are not included in editorial comments.
  • The title should also be provided in Turkish for works submitted by Turkish authors or from Turkey. The title of the manuscripts submitted by foreign authors outside Turkey will be translated into Turkish by the Editor-in-Chief’s Office.

• **Review**
  Reviews prepared by authors with extensive knowledge on a particular field, which has been reflected in international literature by a high number of publications and citations, are evaluated. The authors may be invited by the Editor-in-Chief. A review should be prepared in the format describing, discussing and evaluating the current level of knowledge or topic that is to be used in the clinical practice and it should guide further studies.
  • **Title**
  • **Highlights:** Each submission should be accompanied by 3 to 5 “highlight points” which should emphasize the most striking results of the study and highlight the message that is intended to be conveyed to the readers. It should be limited to 70 words.
  • **Abstract:** It should not include subheadings and should be limited to 250 words.
  • **Keywords:** This section should contain a minimum of three and a maximum of six items in accordance with Medical Subject Headings (MeSH) terms prepared by the National Library of Medicine (NLM) and should be provided just below the abstract.
  • **Main Text:** It should include Introduction, other subsections and Conclusion sections and should be limited to 5000 words excluding the references.
  • **References:** The reference list should be placed just below the main text and the number of references should not exceed 50.
  • **Tables, Figures and Images:** They should be provided after the reference list according to their order of appearance in the text.
  • For reviews submitted by Turkish authors or from Turkey, Title, Abstract and Keywords should also be provided in Turkish. For reviews submitted by foreign authors outside Turkey, translations of these sections will be the responsibility of the publisher.

NOTE: The originality of the visuals included in the reviews should be assured by submission of an accompanying letter by the authors. Appropriate citation should be done for the visuals adapted from previously published sources, in accordance with the original versions of the printed or electronic copies. The written permission obtained from the copyright holder (journal or authors) should be sent to the Editor-in-Chief’s Office.

• **Education**
  Knowledge confirmed by the results of recent research studies, involved in education at academic level and used in clinical practices should be presented in detail in this type of manuscript.
  • **Title**
  • **Abstract:** It should not include subheadings and it should be limited to 250 words.
  • **Keywords:** This section should contain a minimum of three and a maximum of six items in accordance with Medical Subject Headings (MeSH) terms prepared by the National Library of Medicine (NLM) and should be provided just below the abstract.
  • **Main Text:** It should include Introduction, other subsections and Conclusion sections and should not exceed 5000 words excluding the references.
  • **References:** The reference list should be provided just below the main text and the number of references should be limited to 50.
  • **Tables, Figures and Images:** They should be provided after the reference list according to their order of appearance in the text.
  • For educational articles submitted by Turkish authors or from Turkey, Title, Abstract and Keywords should also be provided in Turkish. For articles submitted by foreign authors outside Turkey, translations of these sections will be carried out by the Editor-in-Chief’s Office.

• **Scientific Letter**
  Manuscripts which announce a new scientific invention, are clinically significant, and are in the form of a preliminary report are accepted for publication as scientific letters.
  • **Title**
  • **Main Text:** It should include Introduction, other subsections and Conclusion sections and should not exceed 900 words excluding the references.
  • **References:** The reference list should be provided just below the main text and the number of references should be limited to 10.
  • **Tables, Figures and Images:** They should be provided after the reference list according to their order of appearance in the text and should be limited to two.
  • **Abstract and Keywords:** They should also be provided in Turkish. For letters submitted by foreign authors outside Turkey, the translations of these sections will be carried out by the Editor-in-Chief’s Office.

• **Case Report**
  Since a limited number of case reports is published, only reports which are related to rare cases and conditions that constitute challenges in diagnosis and treatment, offer new methods or suggest knowledge not included in books, and are interesting and educational are accepted for publication.
  • **Title**
  • **Main Text:** It should include Introduction, Case Report, Discussion and Conclusion sections and should not exceed 700 words excluding the references.
  • **References:** The reference list should follow the main text and the number of references should be limited to 10.

• The style and punctuation of the references should be formatted as in the following examples.

NOTE: All visuals in the manuscripts are printed in black and white without charge. However, 300 TL per article must be paid if colour is required. The Editor-in-Chief’s Office of the Anatolian Journal of Cardiology should be contacted for payment.

EVALUATION AND PUBLICATION
The main text submitted to the journal must be in English. Manuscripts written in other languages are not accepted. Citation potential is higher for manuscripts in English.

The Editor-in-Chief’s Office checks the conformity of the manuscript with the journal’s general guidelines before sending it to associate editors and reviewers. Manuscripts not prepared in accordance with the journal’s guidelines will be returned for revision. The evaluation period is limited to 21 days. If revision is requested, authors should submit their revised manuscripts within 24 days. Manuscripts and revisions should be submitted through the online manuscript submission system at the website http://www.anatoljcardiol.com. Manuscripts sent by e-mail will not be accepted.

Manuscripts are evaluated in accordance with the principles of double-blind peer review. Of the submitted manuscripts, those considered to be suitable are subjected to preliminary evaluation by the Editor-in-Chief’s assistants in terms of style, format, etc. and by the Editor-in-Chief in terms of their content. Manuscripts considered to be scientifically adequate are assigned to four reviewers. These reviewers are independent experts and members of the editorial board who have published internationally on the topic of the manuscript. Research articles, systematic reviews and meta-analyses are also evaluated by the Editor-in-Chief’s statistician counsellors in addition to peer review. When needed, the manuscripts are scanned by the Editor-in-Chief’s Office using the iThenticate program for determination of plagiarism and non-ethical situations. Also, all manuscripts are reviewed and edited for compliance with the rules of English grammar. All contributing authors of a manuscript accepted for publication are deemed to have accepted the right of editors to make corrections provided that no fundamental change is made to the basic meaning of the original text. Manuscripts not accorded priority for publication by the Editor-in-Chief, Associate Editors and Referees are rejected.

The retraction requests of the manuscripts close to the final decision in evaluation process, without any reasonable explanation (not contrary to the Publication Ethics) is considered in the scope of rejection decision. Manuscripts that are not revised and resubmitted within the specified time and fail to notify the journal accordingly will be rejected.

Once a manuscript is accepted for publication, addition to the author list, removal from the author list and order change cannot be effected.

Manuscripts accepted for publication are prepared as ‘Epub ahead of print articles’ and published with an assigned DOI on the journal website http://www.anatoljcardiol.com.

Information on the latest status of manuscripts submitted for evaluation and other information about the journal are available on the website http://www.anatoljcardiol.com. Contact details for the Editor-in-Chief’s Office and the publisher are given below.
