Dear Colleagues,

In addition to organizing various training programs and events throughout the year, the Turkish Society of Cardiology plans to hold the National Cardiology Congress in November, as always, at a level worthy of its 58th year.

The Society is planning to present the rich content of our congress, which is one of the leading scientific congresses at national and international level with both the number of participants and high quality scientific content, with a wide range of satisfying scientific programs and various social activities that will appeal to all our participants.

Our goal of making our congress the leading meeting of the region in the field of Cardiology continues.

Our colleagues from other continents, as well as our colleagues from the European Society of Cardiology, member countries, will attend our congress this year. We expect the participation in our congress, which we held online last year, to increase even more this year.

In our congress, we tried to prepare the best program for you. We will update and discuss our latest knowledge on cardiovascular diseases through "Symposiums", "Contrasting View" and "How To" sessions. We expanded our "Cardiology in Daily Practice" sessions under the title of "Young Cardiologists Sessions" to cover the entire cardiology practice.

We will improve our skills as well as our knowledge with the certified "Interactive Courses", the number of which we have increased due to the intense interest in the past years. In each of our sessions, there are valuable speakers and panelists from Turkey and the world who are prominent scientists of their areas.

We believe that our joint sessions with ESC, ACC, Turkish World Society of Cardiology, EACVI, EHRA and EAPCI will be watched carefully.

Our congress, whose international dimension has become stronger this year, will again be credited by the TSD.

We will be pleased to see you among us at our congress.

Looking forward to meeting with you all within the 37th Turkish Cardiology Congress with International Participation on 18-21 November 2021, to share our knowledge,

With our best wishes and best regards,

Prof. Dr. Vedat Aytakin
President of TSC

Prof. Dr. Muzaffer Değertekin
President Elect
Chair Scientific Committee
