Dear Colleagues,

The Turkish Society of Cardiology is planning to hold the 40th National Cardiology Congress this November at a level befitting its significance, alongside organizing various educational programs and events throughout the year.

Our aim is to present a rich scientific program and diverse social activities that will cater to all participants, making our event, which is among the leading scientific congresses nationally and internationally in terms of participant numbers and high-quality scientific content, highly rewarding.

We will strive to prepare the best program for you. Through "Symposia," "Courses," "Interesting Case Sessions," "Case Discussions," and "Joint Sessions," we will update and discuss the latest information on cardiovascular diseases. As always, under the heading of "Young Cardiologists' Sessions," we will cover the latest developments encompassing all aspects of cardiology practice. Due to the high interest in recent years, we have increased the number of "Interactive Courses" that offer certification, enhancing not only our knowledge but also our skills.

Each session will feature esteemed speakers and discussants with significant expertise from Turkey and around the world. We believe that our joint sessions with ESC, EAS, ACC, the Turkic World Cardiology Association, EACVI, EHRA, and various national cardiology societies will be closely followed.

We are also proud to organize the 10th Turkic World Cardiology Congress alongside our congress this year.

Our congress, which has grown even stronger this year, will once again be accredited by the Turkish Medical Association. We look forward to welcoming you among us at our congress.

We hope to meet and share knowledge at the National Cardiology Congress on November 6-10, 2024, with our best wishes and regards.

Prof. Dr. Ertuğrul Okuyan, Scientific Committee Chair

Prof. Dr. Can Yücel Karabay, Scientific Committee Vice-Chair

Prof. Dr. Muzaffer Değertekin, President, Turkish Society of Cardiology

- ▶ S1-S98 ORAL PRESENTATIONS
- ▶ S99-S178 POSTER PRESENTATIONS
